Joint statement from the leaders of the United Kingdom, France, Germany, Italy, the Netherlands, Japan, Canada, Republic of Korea, New Zealand, Denmark, Latvia, Slovenia, Estonia, Norway, Sweden, Finland, Czechia, Romania, Bahrain, Lithuania, Australia and United Arab Emirates on the Strait of Hormuz.
(21/03/2026)

We condemn in the strongest terms recent attacks by Iran on unarmed commercial vessels in the Gulf, attacks on civilian infrastructure including oil and gas installations, and the de facto closure of the Strait of Hormuz by Iranian forces.

We express our deep concern about the escalating conflict. We call on Iran to cease immediately its threats, laying of mines, drone and missile attacks and other attempts to block the Strait to commercial shipping, and to comply with UN Security Council Resolution 2817.

Freedom of navigation is a fundamental principle of international law, including under the United Nations Convention on the Law of the Sea.

The effects of Iran's actions will be felt by people in all parts of the world, especially the most vulnerable.

Consistent with UNSC Resolution 2817, we emphasise that such interference with international shipping and the disruption of global energy supply chains constitute a threat to international peace and security. In this regard, we call for an immediate comprehensive moratorium on attacks on civilian infrastructure, including oil and gas installations.

We express our readiness to contribute to appropriate efforts to ensure safe passage through the Strait. We welcome the commitment of nations who are engaging in preparatory planning.

We welcome the International Energy Agency decision to authorise a coordinated release of strategic petroleum reserves. We will take other steps to stabilise energy markets, including working with certain producing nations to increase output.

We will also work to provide support for the most affected nations, including through the United Nations and the IFIs.

Maritime security and freedom of navigation benefit all countries. We call on all states to respect international law and uphold the fundamental principles of international prosperity and security.

European Nations, Japan Say Ready To Help Secure Passage Through Strait Of Hormuz (19/03/2026)

US European allies and Japan express readiness for "appropriate" efforts to secure passage through the key Strait of Hormuz, as the already widespread conflict in the Middle East threatens to spin out of control, although three countries emphasized any effort would only occur after a cease-fire.

"We express our readiness to contribute to appropriate efforts to ensure safe passage through the Strait," said a joint statement from the leaders of the United Kingdom, France, Germany, Italy, the Netherlands, and Japan published on March 19.

Iran: Γιατί οι επιπτώσεις από την «εξόντωση» του Αλί Λαριτζανί ξεπερνούν αυτές της απώλειας του Χαμενεί

(17/03/2026)

- *Ο θάνατος του Αλί Λαριτζανί, θεωρείται βαρύ πλήγμα για το Ιράν, με επιπτώσεις που μπορεί να ξεπερνούν ακόμη και την απώλεια του Χαμενεί, καθώς αφαιρεί έναν από τους βασικούς στρατηγικούς εγκεφάλους του συστήματος.*
- *Η απομάκρυνσή του αφήνει ακάλυπτες τρεις κρίσιμες εστίες, τον πόλεμο, την εσωτερική αναταραχή και το πυρηνικό πρόγραμμα, ενώ ενισχύει τον ρόλο του στρατού και αυξάνει τον κίνδυνο αποσταθεροποίησης.*

- *Η απουσία του περιορίζει δραστικά τις διαθέσιμες ηγετικές επιλογές και εντείνει την κρίση διαδοχής, σε μια περίοδο όπου το ιρανικό σύστημα χάνει διαδοχικά ανώτερα στελέχη.*

Hundreds of migrants are vanishing in the Mediterranean. Authorities are withholding information

(17/03/2026)

The beginning of 2026 ranks as the deadliest start to any year for people trying to cross the Mediterranean — an unprecedented 682 confirmed missing as of March 16 — according to the United Nations' International Organization for Migration. But the real death toll is almost certainly much higher.

Human rights groups are increasingly struggling to verify tolls as Italy, Tunisia and Malta have quietly restricted information on migrant rescues and shipwrecks along the deadliest migration route in the world. The news barely makes headlines, in part because the lack of transparency prevents journalists from confirming reports.

"It's a strategy of silence," said Matteo Villa, a researcher focusing on migration and data at the Italian Institute for International Political Studies think tank.
